Bro. Warren has just returned from a chase through the city to get a look at the Contributor, (ours having failed) & has ascertained that the Utica Convention is postponed until 24th. June. Please mention this to Mr. Lafon. Bro. W. leaves this evening for Boston, to return here next week, where any communication for him will find him. The Steamer is in - but no letters for us - 2 Non Conformists & Bx. & For. Reporter for May.

Mr Hanson
May 22, 1846.

Rev. A. D. Postell.
Care of Prof. C. K. Cleveland.
Clinton Place,
Philada.

you would not like to lose it. You can prob-
ably find it in Philada. I will take good care
of it, subject to your order.

P. M. I find I have a few minutes to spare before
my friend calls for this; & I take them to say that
Mr. Gaspan has been giving me a regular lecture on the
subject of the Reporter, Sept, Mr. Pbitts bill for printing the
last No. which I handed to him. He says that you & I
have got the business in hand to make the paper support it-
self by the close of this year; & that the Comm. cannot continue to.
their money to sustain it as they have done this Spring.
I wish that we could have a talk about this matter on
your return. I feel sincerely desirous to be doing some-
fectively to save the interests of the Society: but confined
as I am here from morning until night, I have but little
chance to do much, except to urge upon visitors to become
subscribers; & most of them find their excuse in the expen-
ses of their own local concerns. I see that something must
be done; & if you can give a little thought to the subject
while you are absent, & be ready to tell me when you
get home how I can best employ myself to accomplish
the object desired, I trust that you & the Comm. will
find me willing to do what I can to further the objects
of the Society. In the mean time, can you do any thing
among the friends in Philada., resident or strangers?

Yours truly Wm. Hamed.

just as I find it in the Minor. I do not see
any comments, editorial or communicated. It
occured to me that you would possibly like to
write to somebody in Maine to have an eye
over them for their good & our information.

Besides this we have little that is new.
The Baptist Convention at Brooklyn have
adjourned; & I gather from Bro. Warren, have
been specially careful not to hurt the feelings
of Southern Brethren. Among the notices of
Foster's death, there are few better, I think,
than are headed "a Comparison" in the Hart-
ford Herald - perhaps more appreciated because
unexpected. Another "morcel" from the
Recorder of this week shall close my Epistle.
"At a meeting of the Woburn Association, held May,
5/46 it was Resolved, That we are unanimously
of opinion that the course hitherto pursued by the
A. B. C. F. M. relative to Slavery is not only lawful
& expedient, but in accordance with the letter &
Spirit of the gospel, & ought to be sustained by the
Christian community: - to be published in the
Recorder & Puritan. Joseph Bennett. Mod.
B. M. Hay. Scribe." So much for Woburn!
Stowe is also out with his Finale - I would
mail yours to you; but it may miscarry, &

H. & E. GOODWIN

S-4

Newyork. May 22. 1846.

Dear Bro. Phelps,

As Bro. Littlefield goes to Philada. this evening, I send you by him the following, cbied from the "Union" of the 21st. rec'd this morning. As my eye accidentally rested upon it, I thought you would like to know of it, as one of the signs of the times.

"Notice.

"In pursuance of arrangements made by the Penobscot Association, there will be a Missionary Convention in Bangor on the second day of June next. The object of the meeting, which is to be held in the Hammond St. meeting house, & is expected to occupy at least two days, is to bring to pass a more general & correct understanding of the principles on which the missions of the American Board are conducted, & to awaken in all hearts, a juster sense of the greatness, the benevolence, & the grace of the missionary work. The Churches in the Penobscot Conference, & all churches in the vicinity are invited to attend.

Bangor, May, 15. By order of Committee."

The italicising is not our own (as Editors say, but
